EMINENT EDITORS AND OTHERS MEET TO GLORIFY SUCCESS.

A Great Gathering of Editors of Public Opinion at Boston-Col. Taylor, of the Globe, the Toast of the Banquet—Henry Dana, Resolute Child, Elected Cash, and Eloquent Nye Hobson.

Boston, May 11.—The banquet which was tendered to Col. C. H. Taylor at the Vendome Tuesday evening in honor of his success as a newspaper man and in commemoration of the establishment of the Globe in its new quarters was one of the most elaborate affairs ever seen in this city. Excepting at some in-

Major O'Brien, who supported the Globe's policy, and who was the only one to do so, the Globe's paper than to that of a dozen Republican combined.

Joseph Howard, Jr., made an amusing speech, declaring that he was loyal to the Globe so long as it pursued a policy of raising salaries. George Alfred Townsend, Editor of the Philadelphia News; Col. Brown, of the New York News; Col. Knox, of the Boston Herald; of the Judge, and others made speeches, and John D. O'Reilly read a poem, and the entertainment closed with rousing cheers for Col. Taylor.

MAYOR HEWITT EXPLAINS.

Origin of the Story of His Offer to the Knights of Labor.

New York, May 11.—Mayor Hewitt says that there is a misunderstanding on the part of the Knights of Labor in regard to his alleged offer to let the employees of Cooper, Harts & Co.'s Traction run works take the business and run it as a co-operative concern if they would guarantee the company 5 per cent. on the capital stock. He says there was no definite offer of that kind. A committee waited on him and suggested some possible means of wages which did not strike him as feasible, and he told the committee that taking one year with another the works had not paid 11 per cent. and if they thought there was any money in the business they might try the experiment of running it. They would then find that they would need to cut their wages down 30 per cent. as that was just what the concern ran behind last year.

The committee seemed rather surprised at this. It was suggested that they could guarantee 6 per cent. on the investment the company would willingly let them take the works off their hands. From this conversation has grown the report that he had offered to let the employees take the works.

Opposed to the Coal Strike.

Pittsburg, May 11.—It was rumored Tuesday that the K. of L. general executive board had issued an order against the coal strike, and would insist upon the strikers returning to work at once. Investigation proves the above not to be a fact, but the knights officials have given the assurance that they are opposed to the movement. A. A. Carlton, member of the general executive board, was interviewed and said that the matter had not yet been placed before the general executive board, and he did not know what it would be.

Col. Joseph H. French, president of the Knights of Labor, was interviewed and said that the condition of the coal trade at this time did not warrant it.

"Conspiracy" in the All-Encompassing World.

Pittsburg, Pa., May 11.—Tuesday a committee, representing the entire Knights of Labor organization, appointed by the general executive board, met at the residence of the committee. The committee consists of: Julius L. B. Noyes, of Illinois; A. A. Carlton, of Boston, and Thomas A. Armstrong, of this city, whose duty it is to inspect the conspiracy laws of each state and ascertain what bearing they may have upon strikes and labor movements, and also upon the operations of the money power.
